Product Description

Battery Powered Tug Aircraft Tow Tractor Four Wheel Steering And Four Wheel Drive

The battery powered aircraft tow tractor continues the tradition of innovation at GOODSENSE forklift by incorporating the latest zero emission, energy-efficient, 80v A/C electric drive. This Four Wheel Drive and Four Wheel Steer vehicle is unbelievable manoeuvrable for its size and will perform in any weather condition for business and regional aircraft. If your goal is to go green, the GOODSENSE battery powered aircraft tow tractor is the most reasonable selection.

The TB150 stars an ergonomic front operator space that can contain an operator and one copilot. Operators will benefit from the design allowing for front and rear visibility coupled with the standard inching feature for simple and efficient hitching. The optional "smart charge" battery and charger system allows the battery to be opportunity charged to maximize efficiency, with no reduction in battery life cycle.

GOODSENSE forklift has been manufacturing the industry's most reliable and functional tow tractors for over 15 years. Designed and manufactured in China, the TB150 Series is backed by factory direct service and support. With a robust product line and the strongest warranty in the industry, we pride ourselves on providing the highest level of quality and customer service. At GOODSENSE forklift, we earn our wings without ever leaving the ground.
